

REPORT

To: ENVIRONMENTAL SERVICES COMMITTEE	Subject: Auchinlea Landfill Site Tenders for Phase 5
From: DIRECTOR OF ENVIRONMENTAL SERVICES	
Date: 30th March, 1998 Ref: GB/MC	

PROPOSED DECISION

To approve the acceptance of the cheapest tender and thereafter make the necessary funds available from Capital to undertake the works and purchase the necessary clay.

FINANCIAL CONSIDERATIONS

The costs of this work requires to be funded from the current year's Capital Programme.

REPORT

Members will be aware from previous reports that Phase 4 of the previously approved works completed last year and gave the Council approximately one year's tipping space which will end in October this year.

Tenders have therefore been sought for the works necessary for Phase 5 to be completed in time to allow continuity of waste disposal at the site.

The details of the various tenders are as detailed at the Appendix to this report which were obtained and examined by the Department's Consultants for the works, Messrs. Cuthbertson Environmental.

They recommend that the works be awarded to the cheapest tenderer, Messrs. I. & H. Brown in the sum of £415,027.80.

In order to carry out these works suitable clay to the standard laid down by SEPA also requires to be purchased to be used as a liner within the Phase 5 and the cost is estimated at £210,000.00.

RECOMMENDATION

To approve the cheapest tender by I. & H. Brown and also the purchase of the necessary clay required for Phase 5 of the landfill site.

M. Kennedy *L. Hutcheon*
