Matters Arising

NLC Winter Service Policy & Procedures 2011

Parking at Entrance to Community Park

The area is being used to park vans advertising local businesses. Police say there is no obstruction and are unable to take action to stop them. Cllr Fagan will see if NLC can do anything.

Dog Fouling

We would like to see additional bins at St David's Drive, Monks Road and the path behind Ayr Drive. Cllr Fagan will raise the matter.

Water Supply

There will be a consultation meeting on 16 November 2011 if anyone wishes to attend. A major project is underway from Coatbridge to Airdrie with drilling under Victoria Place.

Community Nature Park

The work took longer than planned, due to numerous ground problems. Planting will now take place in March.

Brownsburn Drainage

To date Robert McCombe has had no response from NLC regarding problems with the burn. The volume of water has increased, bringing rubbish and debris which blocks the pipe.

Frog Life

We have been approached by an organisation called Frog Life about creating two small ponds between Calderbank Road and the rear of Monks Road. It is thought that there were ponds there years ago.

Right of Way

Dr Glen will bring up the matter of the right of way which has been taken for the new school campus, next time the Access Forum meets.

Additional Salt Bins

Cllr Fagan will let NLC know where they are required. Please make sure the people living nearby have no objection.
