

NORTH LANARKSHIRE COUNCIL

REPORT

AGENDA ITEM No 10

TO: Planning and Environment Committee	Subject: Restricted Tender List For Carriageway Re Tread Process 2005_2006	
From: Director of Planning and Environment		
Date: 02 March 2005	Ref: N/TM/61/8	

**1. Purpose of Report**

- 1.1 The purpose of this report is to seek authorisation to issue a tender restricted to Colas Ltd and Kiely Bros Ltd for the "North Lanarkshire Council, Carriageway Retread Process 2005/2006" contract.

**2. Background**

- 2.1 Carriageway Retread is a cold in-situ recycling operation that can be used on rural or urban roads. The road is reconstructed to a depth of 75mm by down milling the surface and rejuvenating the continuous layer by the addition of bitumen emulsion. The process has been successfully utilised in the past and the estimated cost of the treatment is £7.00 per square metre, which compares favourably with conventional reconstruction costing £10.00 per square metre. The process therefore represents good value not only on cost but also its recycling qualities.
- 2.2 At the present time Colas Ltd and Kiely Bros Ltd are the only companies, who are on the Standing Approved List of Contractors, carrying out this type of work in Scotland and it will be necessary for the Council to restrict the tender to these contractors.
- 2.3 It is intended to allocate £240,000 from the Department's revenue budget to carry out this work.
- 2.4 A further committee report will be submitted with a view to obtaining Committee authorisation to award the contract

**3. Recommendation**

**3.1** It is recommended that Committee

- a) Authorises the Director of Planning and Environment to issue a tender, restricted to ,Colas Ltd and Kiely Bros Ltd for the "North Lanarkshire Council, Carriageway Retread Process 2005/2006" contract.
- b) Notes that a further committee report will be submitted with a view to obtaining Committee authorisation to award the contract

**David M Porch**
