

Application No: C/05/00620/FUL

Date Registered: 18th April 2005

Applicant: T-Mobile (UK) Ltd
C/o Agent

Agent Stappard Howes
122 Dundyvan Road
Coatbridge
ML5 1DE

Development: Installation of 20 Metre Telecommunications Monopole,
Incorporating 3No. Antenna and Ancillary Equipment Cabinets

Location: Land To The North Of
Broadlees Garage,
Carlisle Road
Airdrie
Lanarkshire

Ward: 51 Chapelhall Councillor Thomas Curley

Grid Reference: 277782 663514

File Reference: C/PL/AIC208/LM/EL

Site History:

Development Plan: The application site is located in an area covered by policy ECON2
(Existing General Industrial Area).

Contrary to Development Plan: No

Consultations:

Representations: 7 Representation Letters

Newspaper Advertisement: Not Required

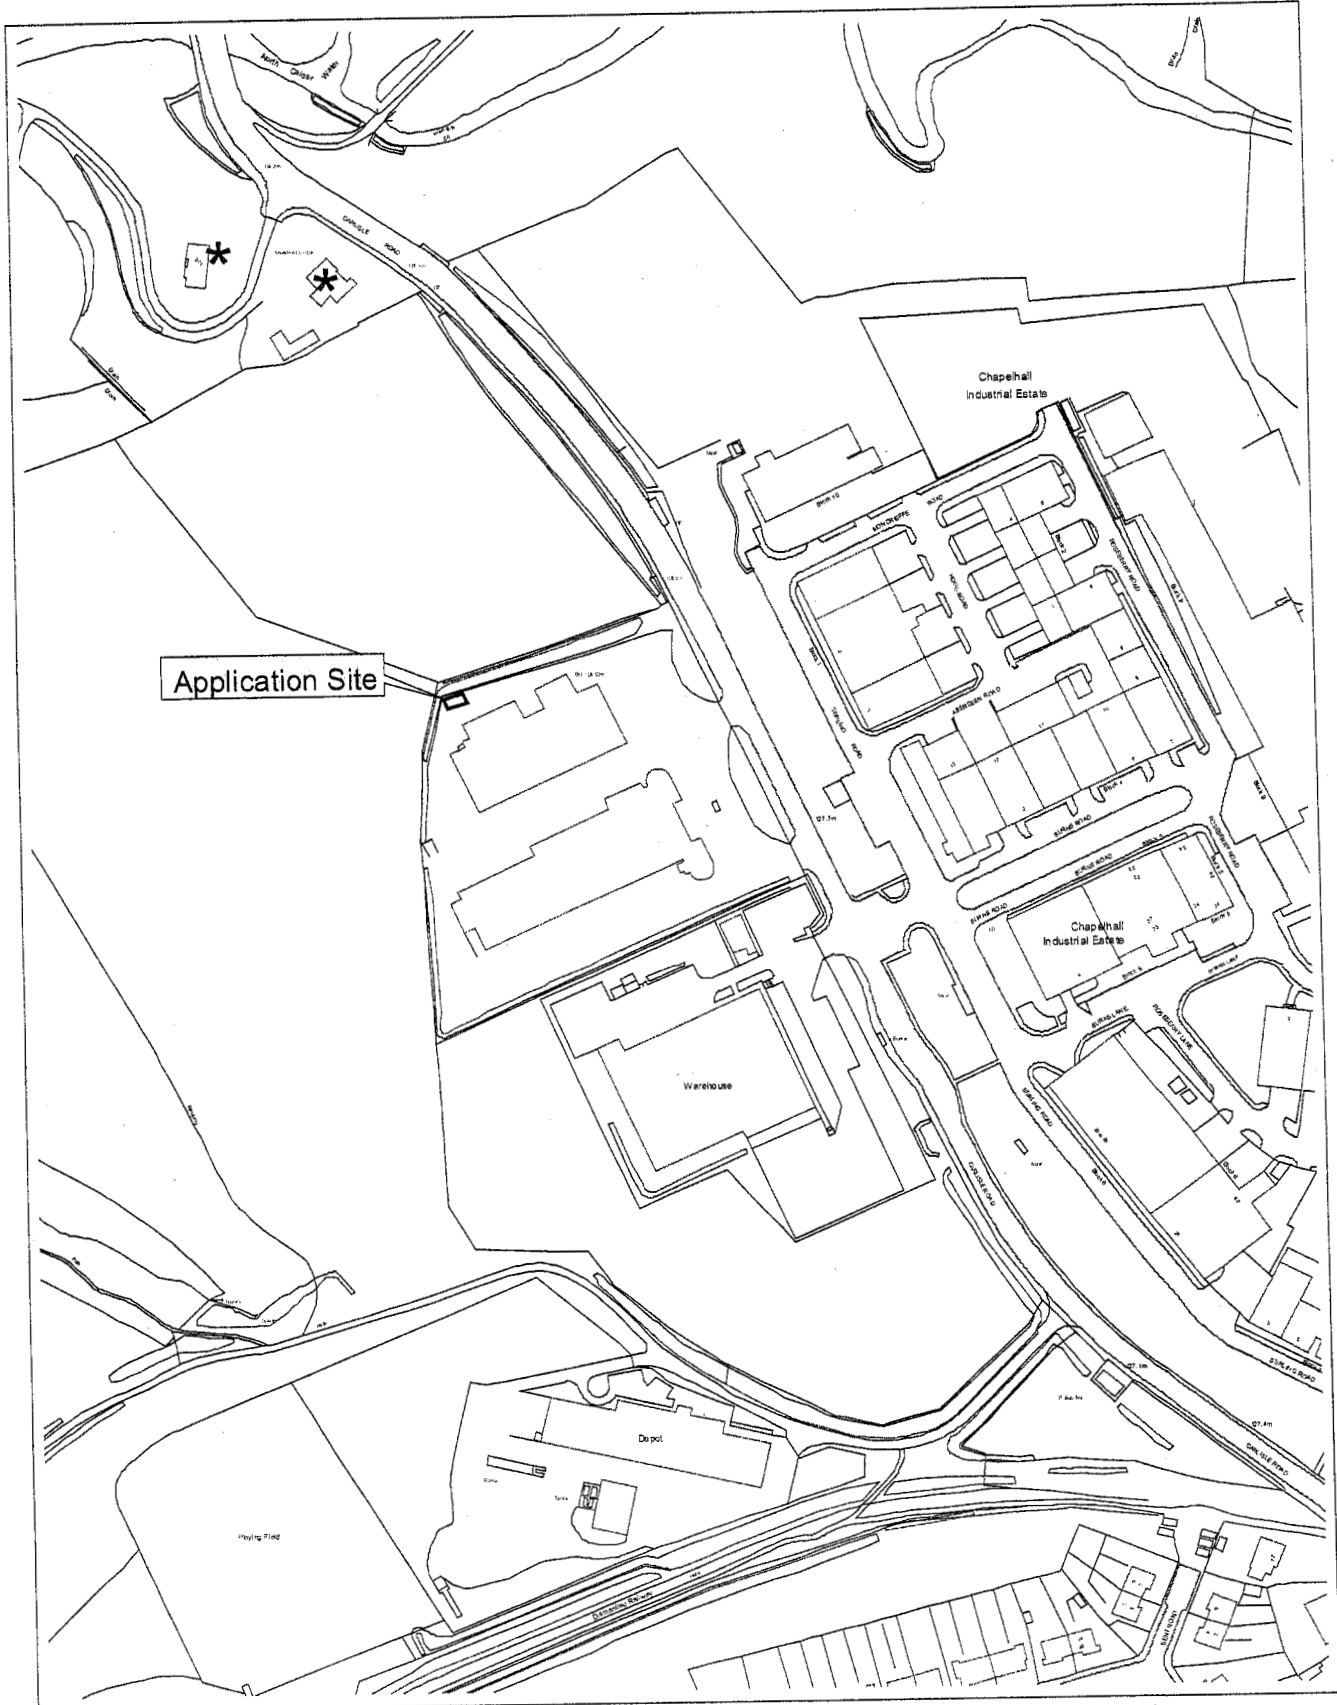

Recommendation: Grant Subject to the Following Conditions:-

1. That the development hereby permitted shall be started within five years of the date of this permission.

Reason: To accord with the provisions of the Town and Country Planning (Scotland) Act 1997.

2. In the event that the equipment hereby approved becomes redundant it shall be removed and the site reinstated to the satisfaction of the Planning Authority within one month of the equipment becoming redundant.

Reason: To ensure restoration of the site to a satisfactory standard.

APPLICATION NO. C/05/00620/FUL

REPORT

1. Description of Site and Proposal

- 1.1 The development for which planning permission is sought is for the installation of a 20 metre high telecommunication monopole with associated equipment and cabinet. The application site is positioned on the boundary of an existing industrial area to the south and open fields to the north.
- 1.2 It is proposed that the mast will be of monopole design and will accommodate 3no antennae, and 2no dishes along with one associated equipment cabinet. The proposed access to the monopole is via the industrial site.

2. Development Plan

- 2.1 The site is designated within the Monklands District Local Plan 1991 as ECON2 (Existing General Industrial Area) and policy TEL1 (Telecommunications Development) is also applicable. As the application raises no strategic issues, it can be assessed in terms of the local plan policy.

3. Consultations and Representations

- 3.1 The Transportation Section have been consulted and have no objections.
- 3.2 Following the standard neighbour notification procedures, 7 letters of representation were received against this proposal. The main points of which are as follows:
- i. Long term health implications are unknown
 - ii. Consideration should be given to all research relating to the health implications
 - iii. Danger to the health of livestock
 - iv. Telecommunications masts require to be sited well away from housing
 - v. Telecommunications masts are eyesores within the townscape and countryside
 - vi. Telecommunications masts should require to be located only in rural areas
 - vii. NLC and other local authorities should prepare a map indicating the location of these types of installations
 - viii. Lack of neighbour notification to surrounding residents
 - ix. The area is currently being promoted as a countryside walk
 - x. Unfair prejudice on the future development of neighbouring land

4. Planning Assessment and Conclusions

- 4.1 Policy TEL1 contained in the Monklands District Local Plan 1991 indicates that any telecommunications developments will be considered with regard to national policy and against; economic benefit, specific locational need and environmental impact.

- 4.2 NPPG 19 provides support for telecommunications development, where the applicants have demonstrated the ability to carefully consider the siting and design options, and where the possible environmental effects have been minimised. Should the applicant have taken all these factors into consideration, refusal is unlikely to be warranted. With regards to PAN 62, it should be noted that it is preferred to locate telecommunication equipment in unobtrusive locations. The applicant has satisfied the criteria set out in both NPPG 19 and PAN 62.
- 4.3 It is unlikely that there would be a significant negative or positive impact in regards to economic benefit that can be measured. It will be of general benefit to the community to have full signal coverage for mobile phones.
- 4.4 As for specific locational need several sites were investigated. However due to limited coverage, lack of site providers and the inability to site-share with any other telecommunications installations in the surrounding area, the application site was chosen to provide the appropriate network coverage.
- 4.5 In considering environmental impact, it is felt that the proposed installation will not have a significant visual impact due to the screening from the existing industrial unit, trees and an embankment. As for related health impact the proposal is in accordance with all relevant national planning policy and the applicant has submitted the ICNIRP compliance certificate.
- 4.6 In relation to the grounds of objection, these are addressed as follows:
- i. The required ICNIRP Declaration has been supplied stating that the proposal is in compliance with the international safety standards for electro-magnetic radiation emissions. It is conceded that there is significant public awareness of the possible health risks associated with telecommunications apparatus. However, while the public perception of health risks has been regarded as a material planning consideration in previous cases, given that the applicant has provided the necessary ICNIRP certificate, it is considered that health implications are not sufficient enough on their own to justify refusal of this planning application.
 - ii. In drawing up national policy on the health implications the Scottish Executive will have studied all available information. A study of this at the local level is not appropriate.
 - iii. Please refer to the previous two responses.
 - iv. The proposed mast is located approximately 162 metres from the nearest dwelling and 248 metres away from the closest settlement. The national guidance requires that any masts minimise any detrimental visual impact on surrounding residential area and the applicant has taken measures to achieve this.
 - v. Telecommunication equipment generally requires to be located in prominent positions in order to maximise coverage, to ensure the number of installations is kept to a minimum. In this instance it is felt that the applicant has reached a balance between providing a large area of coverage while utilising the landform, buildings and mast structure to minimise the visual impact on the surrounding area.
 - vi. The location of telecommunication masts solely within the rural area would require that the apparatus be larger and more intrusive to the surrounding area in order to provide coverage to urban areas.
 - vii. It is felt that a plan such as this would not be relevant or necessary as the planning assessment looks at each case on its individual merits.
 - viii. The neighbour notification carried out was done so as per statutory requirements. The objector who raised this issue did not require to be neighbour notified.
 - ix. It is felt that the monopole will have a minimal impact on the North Calder Trail as the views are away from the proposal down to the valley.
 - x. The planning assessment can only take into consideration the merits of the current proposal.

- 4.7 In conclusion, I have considered the points of representations but find that they do not raise any issue that would merit the refusal of this application. The design of the proposal is considered to be acceptable and will have minimal visual impact with the surrounding area. I therefore recommend that planning permission be granted subject to the appropriate conditions.

NORTH LANARKSHIRE COUNCIL

SUPPLEMENTARY REPORT

To: PLANNING AND ENVIRONMENT COMMITTEE		Subject: Planning Application C/05/00620/FUL: Installation of 20 Metre Telecommunications Monopole, Incorporating 3No. Antenna and Ancillary Equipment Cabinets at Land To The North Of Broadlees Garage, Carlisle Road, Airdrie, Lanarkshire
From: DIRECTOR OF PLANNING AND ENVIRONMENT		
Date: 12 th July 2005	Ref: C/PL/AIC208/LM/LR	

1. Purpose of Report

- 1.1 To present the Committee with additional information relating to planning application C/05/00620/FUL (as above) which was considered by the Planning and Environment Committee at its meeting of 8th June 2005, and for the Committee to determine the said application.

2. Background

- 2.1 An application report (as attached) and a late representation report was presented to the Planning and Environment Committee at its meeting of 8th June 2005. At that meeting it was agreed that the application should be held over for a site visit and hearing. Since the meeting on 8th June further letters of representation have been received.

3. Sustainability Implications

- 3.1 These are addressed within the application report.

4. Proposals/Considerations

- 4.1 Since the preparation of the committee report by the Director of Planning and Environment in respect of the above, 198 further letters of representation have been received.

- a) Mr D Espie has requested that the following matters be taken into consideration:
- Health implications
 - Mr Espie was not notified directly by the applicant.
- b) A further representation from Dr Glen on behalf of the Monkland Glen Community Council makes the following comments:
- Health implications
 - Possible interference with sensitive equipment such as pacemakers and defibrillators
 - The spoiling of appearance of both built up areas and the countryside
 - Adverse effect on farm animals and disruption to the sense of direction of birds, insects and wild animals
 - A precautionary principle should be applied and the application refused
- c) Depute Provost Tom Curley has indicated his objection to the telecommunications mast and has requested that the matter be carried forward for a site visit and hearing.

- d) Mrs Arthur has requested that the following matters be taken into consideration
 - Health implications
 - Spoiling open views of countryside
 - Adversely effecting on property prices
- e) Peter & Karen Kennedy and Keith McPherson have concerns regarding the health implications.
- f) 192 further letters of representation were hand delivered to the Planning Department on the 28th June 2005. Of the 192 letters received 189 have been acknowledged, however 3 letters did not contain a return address. The letters consisted of 6 standard letters that were signed by individuals. For the purpose of this report I have summarised the contents of these letters as follows:
 - Health implications
 - The spoiling of appearance of both built up areas and the countryside
 - Adverse effect on farm animals and disruption to the sense of direction of birds, insects and wild animals
 - A precautionary principle should be applied and the application refused
 - Proximity of the North Calder Water nature trails
 - Adversely effecting on property prices

4.2 In response to the above comments I would respond as follows:

- With regard to the issue of health, visual appearance, effect on farm animals and emissions, these matters have been addressed within the report
- In relation to the neighbour notification this was carried out as per statutory requirements. Mr Espie did not require to be neighbour notified.
- National guidance does not suggest that disruption to the sense of birds and wildlife is a likely impact to be considered.
- In terms of a precautionary refusal of the application, national guidance promotes such development and the assessment of the detail indicates that there are no overriding reasons for refusal.
- With regard to the spoiling of open views of the countryside, while part of the North Calder Trail is located to the north west of the site, it is felt that the monopole will have minimal impact as the views are away from the proposal down the valley.
- Any perceived adverse effect on the value of neighbouring property is not a material planning consideration.

5. Corporate Considerations

5.1 These are addressed within the application report.

6. Recommendation

6.1 That planning application C/05/00620/FUL be granted on the basis of the recommendation within the attached report.

David M. Porch
DIRECTOR OF PLANNING AND ENVIRONMENT

Local Government Access to Information Act: for further information about this report, please contact Leigh Menzies, Planning Officer on 01236 812372.

Background Papers

Planning Application C/05/00620/FUL

Letter from D Espie, 4 Woodlea Avenue, Monks Glen, Airdrie, NL6 8RZ received 3rd June 2005.

Letter from E. Arthur, 14 Woodvale Avenue, Airdrie, ML6 8RW received 6th June 2005.
Letter from Monkland Glen Community Council, C/o Dr I.A. Glen, 12 Monks Road, Airdrie, ML6 9QW received 7th June 2005.
Letter from Mr & Mrs Kennedy, 7 Glenwood Avenue, Airdrie, ML6 8RY received 9th June 2005.
Letter from K. McPherson, 2 Friars Way, Airdrie, ML6 9QU received 13th June 2005.
Letter from Depute Provost Tom Curley, Ward 51 - Chapelhall, PO Box 14, Civic Centre, Motherwell, ML1 1TW received 7th June 2005.

Letter from H. McKendry, 20 Cloister Avenue, Airdrie, ML6 9QS received 28th June 2005.
Letter from C. King, 19 Cloister Avenue, Airdrie, ML6 9QS received 28th June 2005.
Letter from W. McFarlane, 18 Cloister Avenue, Airdrie, ML6 9QS, received 28th June 2005.
Letter from T. Gibb, 17 Cloister Avenue, Airdrie, ML6 9QS received 28th June 2005.
Letter from W. Shields, 11 Cloister Avenue, Airdrie, ML6 9QS received 28th June 2005.
Letter from K. Dunne, 16 Cloister Avenue, Airdrie, ML6 9QS received 28th June 2005.
Letter from E. Moffat, 8 Cloister Avenue, Airdrie, ML6 9QS received 28th June 2005.
Letter from A.J. Shand, 4 Cloister Avenue, Airdrie, ML6 9QS received 28th June 2005.
Letter from G. Morrison, 3 Cloister Avenue, Airdrie, ML6 9QS received 28th June 2005.
Letter from R. Reid, 6 Cloister Avenue, Airdrie, ML6 9QS received 28th June 2005.
Letter from S. McMullen, 2 Cloister Avenue, Airdrie, ML6 9QS received 28th June 2005.
Letter from W. McMullen, 2 Cloister Avenue, Airdrie, ML6 9QS received 28th June 2005.
