Minutes and Matters Arising

The minutes were accepted. Brenda noted that the St Andrews Hospice bicycling event had been called off as there was insufficient interest to make it profitable.

Noted that the police have not been at recent meetings. Adam wanted to discuss a recent assault at the junction of Glasgow Rd and Bluebell walk.

Norman had been investigating a hearing loop system and Council arrangements. One is available in our usual venue but needs to be charged up for meetings and he wants to give this a try. The only disadvantage is that we won't have it at other venues.

CVAC Report

CVAC to be involved in an NLC Langriggs Management Plan in the next few weeks.

There are 5 half plots vacant at the moment. They will be advertised on the facebook page
The cabin still has some work needing done, including laying flooring and painting internal walls. Nancy is arranging for a costing of getting an external electricity supply for the cabin.
The next task planned is to fit guttering with water butts attached.

There was discussion of the increase in litter around the village and the need to alert NLC.

AOB

There was a short discussion of the news that the Film Studio facilities at Wardpark are to be extended and the prospect of new jobs and perhaps increased economic activity generally was welcomed.

Next meeting Brenda advised that the next meeting is in the Church Session House on April 14th at 7.30pm
