## Community Councillors Reports

**BK** reported that a consultant company had conducted a pre-scheduled range of toxicity tests in the proposed Allotment site in the Cumbernauld Community Park on 10th January 2019. The tests are another step towards implementation of the results of the public Consultation held two years ago in the school.

In relation to the proposed Campsies Board funding he noted that the meeting with the Friends group had not yet taken place. An update has been requested as the date for the final dissolution of the Board and distribution of funds of at the end of March.

## Councillors Reports

**AM** updated CC on recent planning applications. He will keep CC informed of progress.

## AOB

**BK** noted that he had received and completed a Survey for the Local Place Plan asking what support Community Councillors might require. Only comment on this project was that the development of Craigmarloch had left no spaces for community buildings.

**AB** suggested that a Hall or Community Hub should have been considered in the initial Planning. **BK** said that arrangements for promotion of a Business Hub at the Spina Bifida Hydrocephalus charity had been delayed by an injury to the member of staff running this project. The meeting Pods have been installed and should prove useful to self employed Craigmarloch (and wider) residents looking for meeting rooms or temporary office space locally.

The meeting closed at 20.15
