Executive Summary

The purpose of this report is to seek council consent for the re-allocation of land currently within the remit of Environmental Assets to Enterprise & Housing Resources. This will enable Enterprise & Housing Resources to develop the site with new build council housing in keeping with the council's strategy to increase council housing provision.

Recommendations

It is recommended that the Finance and Resources Committee:

- (1) Consider the contents of this report and accompanying appendix; and
- (2) Agree the proposal for this site to be re-allocated from the council's Environmental Assets to Enterprise & Housing Resources for the purpose of construction of new build council housing.

The Plan for North Lanarkshire

Priority Improve the health and wellbeing of our communities

Ambition statement (1) Ensure a housing mix that supports social inclusion and economic growth

1. Background

- 1.1 The council's Strategic Housing Investment Plan outlines the sites that have been identified by Enterprise & Housing Resources as suitable for new build council housing provision. The site at Caledonian Avenue, Bellshill is included in the paper submitted to a meeting of the Enterprise and Housing Committee on 5 September 2018. The contents of that report were noted and approved in keeping with the Committee paper.
- 1.2 The land currently sits within the remit of Environmental Assets and would require to be re-allocated to Enterprise & Housing Resources so that the land falls under their remit and control in future.

2. Report

- 2.1 Enterprise and Housing Resources have approached Asset & Procurement Solutions to assist with the proposed re-allocation of land extending to 8,313 square metres or thereby, plus a small additional area of 119 square metres or thereby, from Environmental Assets to Enterprise and Housing Resources. The land is identified on the plan attached to this report at Appendix 1.
 - 2.2 Environmental Assets have confirmed that they have no objection to the land being released from their remit and they have submitted a report to the Head of Asset & Procurement Solutions to that effect.
 - 2.3 Where there is no objection from Services or local Members to land or property being declared Surplus and passed to another Service or marketed for sale, the Head of Asset & Procurement Solutions has delegated authority to agree the Surplus declaration without the requirement to report to Committee on every case. However, in this instance a local Member has highlighted objections from local residents and indicated support of local resident objections against the development of the land as follows: “loss of green space, possible traffic management issues and possible infringement on the sheltered housing development”.
 - 2.4 Enterprise and Housing Resources applied for planning consent for the development of the land for social housing. The council’s Planning and Place have issued a Decision Notice under planning reference 18/01850/FUL approving the application. During the course of the consideration of the planning application the statutory requirements for notice to neighbours was served. In addition, utility and infrastructure consultations have all been undertaken and met the requirements for planning consent to be approved.
 - 2.5 Whilst the objections of local residents as advised by the local Member are noted. In view of the overall council strategy to identify and develop additional sites for council housing and the planning consent approval, it is recommended that Committee approve the re-allocation of the land from Environmental Assets to Enterprise and Housing Resources.
-

3. Equality and Diversity

3.1 Fairer Scotland Duty

No impact under the Fairer Scotland Duty in relation to this report.

3.2 Equality Impact Assessment

Consideration has been given to the equality impact and no issues have been identified as the provision of additional social housing will benefit those in need of assistance within the community.

4. Implications

4.1 Financial Impact

An accounting payment will be required to be made between the Housing Revenue Account and the General Services Account to reflect the value of the land. This will be assessed by the Estates team of Asset & Procurement Solutions if approval of the re-allocation of the land is confirmed.

4.2 HR/Policy/Legislative Impact

There are no specific impacts under this heading associated with this report.

4.3 Environmental Impact

There are no specific impacts under this heading associated with this report.

4.4 Risk Impact

There are no specific impacts under this heading associated with this report.

5. Measures of success

- 5.1 The re-allocation of the land from Environmental Assets to Enterprise and Housing Resources will allow the development of this site for social housing in keeping with the council's strategy to increase housing capacity for the benefit of the community.
